## EDUCATION

**National Institute of Technology , Rourkela**

*Bachelor of Technology CGPA: 7.38*

**Army Public School**

*12 Science: 94.2%*

Odisha, India

*Dec 2021 - May 2025*

Kanpur, India

*Apr 2019 - May 2020*

## TECHNICAL/OTHER SKILLS

**Programming Languages :** C/C++, JavaScript, Typescript, Go, Python, SQL, HTML, CSS

**Frameworks & Libraries :** React, Node.js, Next.js, Express.js, Bootstrap, Tailwind CSS

**Developer Tools :** Git & GitHub Desktop, VS Code, Database Management System (DBMS), OOPs

**Languages :** English, Hindi

## WORK EXPERIENCE

**SDE Intern at Deskling**

Jun 2023 - Dec 2023

- Led the development of authentication and search functions using Next.js, React, and Redux Toolkit, resulting in improved user authentication efficiency and enhanced search functionality.
- Designed 5 services and over 50 reusable components, resulting in a more efficient and streamlined development process.
- Redesigned booking flows according to customer needs and achieved monthly user retention by 20%.

## PROJECTS

 **PodWave - AI Genrated Podcast** | *GenAI, GPT-4.0, Google Cloud, ReactJs*

Jun 2024 - Present

- Build automated script generation and episode production by leveraging Google Cloud and GPT-4.0, resulting in a scalable, efficient AI podcast platform.
- Implemented Google Text-to-Speech with SSML, which resulted in enhanced clarity and a natural flow for AI generated podcast episodes

 **Open-source package - React Popupify** | *React, RollUp, SASS, npm*

Jun 2024 - Present

- Created the npm library react-popupify, achieving 200+ weekly downloads by delivering an easy-to-integrate API, custom animations, auto-close options, customizable close buttons, event handlers, and configurable closing.

 **Blog Website** | *Next.js, React, MongoDB, Markdown*

Dec 2023

- Designed an efficient blog site with Next.js and server-less services with support of markdown.
- Implemented secure user authentication using iron-session, secured 5+ API endpoints.

## ACHIEVEMENTS/CERTIFICATIONS

**Supervised Machine Learning: Regression & Classification**

May 2024

- Build & train supervised machine learning models for prediction & binary classification tasks, including linear regression & logistic regression

**Postman API Fundamentals Student Expert**

May 2023

- Equipped with a deep understanding of RESTful API, Postman Student Experts analyse intricate API with unmatched proficiency, creating Real-time request with 98% correctness and integrating API into a variety of apps with ease to increase developer productivity by 25%.

## POSITIONS OF RESPONSIBILITY/EXTRACURRICULAR ACTIVITIES

**Technical Team Manager** | *Roots 5.0*

Aug 2023

- Core team member of the technical team for Roots 2023, NIT Rourkela creative hub.
- Collaborated and contributed on the front-end by using react, tailwind CSS, and a responsive, mobile-friendly design.
- Mentored 6 team member of junior developers and collaborated closely with the organizer.

**Web-Team member - Game To Aim** | *GTA*

Feb 2023 - Present

- Strengthened technical skills in web development through active participation in the development of impactful gaming projects at Gate to Aim Club.
